

leisure design & build magazine (ldb)

2016 Features Guide

The rate of change and innovation in commercial leisure facilities means that we no longer produce a formal features programme for the magazine.

Scope of the magazine

ldb is a must read for all stakeholders involved in the design and development of commercial leisure facilities. Covering the many sectors of the leisure industry, regular themes include hotels, spas, leisure centres, sports and stadia, mixed use schemes, swimming pools, heritage, museums and attractions.

Key areas of interest

Editorially led we cover both the internal and external environment, providing the latest insight into design and specification. Every issue is packed with case studies, best practice and comment on key areas of design as well as the most innovative use of materials and technology across all types of commercial leisure schemes. Product areas include:

Cladding & roofing	Heating, ventilation & AC
Windows & rooflights	Insulation
Floors & ceilings	Fire safety & security
Acoustic systems	Swimming pools & water treatment
Modular buildings	Spa & wellness systems
Doors & access systems	Fitness products
Washrooms & changing rooms	Indoor & outdoor lighting

Publishing Frequency

ldb publishes six issues each year – December/January, February/March, April/May, June/July, August/September, October/November.

Editor's note

We are always pleased to hear from you regarding ideas and articles on any of the topics above.
